

Thesis Abstract

This thesis called **(Effect of Syntax Bases on Poetry Criticism in “Defects of Explainers of Abi Al-Tayeb Al-Motanabi Divan” book for Abi Al-Abbas Al-Mahlabi)** is considered as applied studies showing the effect of syntax criticism on poetry study. This book is considered as the most important book in Arab Criticism Studies by Al-Motanabi poetry where there is no other book seems like it as no one can criticize Al-Motanabi Divan Explainers other than him. Thus, you can find the importance of this book and it’s pioneering in topic.

This thesis has achieved in four chapters, proceeded by introduction, preface, conclusion and indexes.

Introduction:

It contains the importance of topic, reasons to choose the topic, objectives, previous studies and research methodology.

Preface:

It contains two matters:

First: the importance of syntax base in the field of poetry criticism as I mentioned the meanings of criticism, defined the linguistic criticism, showed its measures, followed its beginning, showed the most distinct contributions in syntax and morphology criticism at syntax scientists and writers then explored the effects of syntax on the field of poetry criticism.

Second: Abo Al-Abbas Al-Mahlabi and his book “Defects of Explainers of Abi Al-Tayeb Al-Motanabi Divan” as I mentioned his name, ancestry, born, brining up, trips, senility and showed his scientific status and his students and books then showed his belief and death.

First Chapter:

Issues Defects of Al-Mahlabi that changed the meaning showed in two sections:

First: Syntax Issues

Second: Morphology Issues

Second Chapter:

Issues Defects of Al-Mahlabi that did not change the meaning showed in two sections:

First: Syntax Issues

Second: Morphology Issues
