SUBJECT AND PREDICATE BETWEEN THEORY AND APPLICATION

By Nujoud . Jamil. AlMasaafa Supervisor Dr. Ismail Amayreh , Prof.

Abstract

This study aims at describing The subject and predicate according to the selected syntactic original sources and the use of these sources in two samples of prose alike inequality and quantity . One of the samples is old and the other is modern concerning usage and structures and the difference between the old and the modern . .

The study also reveals the arrangement of the rules which govern the use of the structural patterns.

The study includes four chapters: introduction conclusion and a list of references which had been used.

Chapter One includes "theory " which describes subject and predicate as appeared in the books of syntax like:-

AL-Kitab By Seebawaih 180 Hijra.

AL-Muktladab By AL-Mubrid 280 Hijra

AL-Usoul By IbnSirj 316 Hijra.

AL- Jamal By Alzujaji 337 Hijra.

AL- Edaah Aludadi By Alfarisi 377 Hijra.

AL- Mufasal By Alzamakhshari 538 Hijra

Sharih AlMasalik By Ibn Yaeesh 643 Hijra

Sharih Jamal Alzajaji By Ibn Asfour 669 Hijra

Awdah AlMasalik By Ibn Hisham 761 Hijra

Hamaa AlHawma By AlSayooti 911 Hijra

Chapter two includes "application and practice " Using numbers of old tets like Kitab Jamharat Khutab AlArab .

Kitab Qisas AlArab

Whereas Chapter Three is a completion of the methodology that the study used in the pervious chapter applied on a selected modern simple of speeches and short stories

Finally Chapter Four balances the "Theory" and subject and predicate " in two subjects .

First Subject :- balance the use of subject and predicate and their usage in the old and modern way from the point of view of old linguists .

Second Subject :- balance the use of Subject and predicate in the old form and their usage in the modern way .

The Study ends up with a conclusion which includes all the findings of the study
