Abstract

This research tackled the study , the syllabus and the style of the book Al mufradat fi Greeb Alguran for Al hussien Ibn Muhammed Ibn Almufadal . who is called with Elragib Alasfahani .

This study depends on the analytical . deductive descriptive style . through tracingt the method of the book in explaining and in traducing words .

The researcher talked in the first chapter the life of the writer , his life , his books in the language literature and religion besides his way in thinking .

Also the study explained what is meant by the strange expressions in the holy Quran , moreover , it talked the books , of explaining holt Quran from the angle of its meaning and what is meant by it .

In the second chapter the reasea cheer tackeded the Mouthed in his book , Almufadrat which the ordering of the book came according to the letters of the lexicon and the way of explaining the words though the Quran and suna and the standard Arabic Poetry , Also algreeb benefited from the sciences of the language like syntax and philology and the language usage in explaining the Quran for ibn gutieba because both of them specialized in explaining the strange words din Quran except the other science that have a relation ship with the holy Quran .

In the end of this study the research spoke a book in this style that we did not find in other writes it be come we find details . also he brought the views of the philosophers . so his book is considered a language lexicon .

Abstract

This research tackled the study , the syllabus and the style of the book Al mufradat fi Greeb Alquran for Al hussien Ibn Muhammed Ibn Almufadal . who is called with Elragib Alasfahani .

This study depends on the analytical . deductive descriptive style . through tracing the method of the book in explaining and in traducing words .

The researcher talked in the first chapter the life of the writer , his life , his books in the language literature and religion besides his way in thinking .

Also the study explained what is meant by the strange expressions in the holy Quran , moreover , it talked the books , of explaining holt Quran from the angle of its meaning and what is meant by it .

In the second chapter the reasea cheer tackeled the Mouthed in his book , Almufradat which the ordering of the book came according to the letters of the lexicon and the way of explaining the words though the Quran and suna and the standard Arabic Poetry , Also algreeb benefited from the sciences of the language like syntax and philology and the language usage in explaining the Quran for ibn gutieba because both of them specialized in explaining the strange words din Quran except the other science that have a relation ship with the holy Quran .

In the end of this study the research spoke a book in this style that we did not find in other writes it be come we find details . also he brought the views of the philosophers . so his book is considered a language lexicon .
