20. That a farmer if you mess up for any reason, such as a requirement is not a condition of farm custom, or for what is contrary to the purpose of farming, the land is not out anything, the farmer then be corrupt, and therefore the implant then was the owner of the seed, whether it's sowing Group or owner of the land, and last rent, because the farmers in the event of corruption turn Leasing 21. That the Secretary of the Group ie: certified as he says, and therefore accept the saying in the claim of the alleged corruption and betrayal of him, but that comes from the most powerful demonstration of the Prosecutor of the Secretary-proof, provides the strongest evidence.

handled by the speculator himself.

- 14. The scholars agreed that the speculation factor has the right to rent his designee to some of the trade, especially the work entitled to bats to make them from acting on its behalf, in this case be a taxi from the wealth of speculation, because doing such work is one of continued trade and interests.
- 15. Factor that speculation is not permissible for him to dispose of the money only to the benefit of partners and that it is limited to actions that preserve the beneficial money, and achieved a profit, and avoid behaviors that lead to damage to money partners.
- 16. If the speculation factor that claimed to return the money to the landlord denied the owner the correct answer from the views of scientists say that the words of the owner, because the case is otherwise working parent.
- 17. That all of what is owned by a person of money, whether earned or the work of the trade or dedicate to him, all that belongs to his master.
- 18. Scholars agreed that the employer is obliged Almsacap money in anything that might save the survival of the trees, and non-Hlakha or damaged
- 19. The scholars agreed that it was necessary factor Almsacap him to do the necessary work under the contract Almsacap, which would be a cause for good fruit trees, and pursue their increase and quality.

of his share.

- 10. That the company is spoiled if any of the causes of corruption, the profit that the company is divided between the two partners each take as much capital, the most correct opinion among the scholars, as scholars are agreed that the two partners in this case because each and every one of them to his partner paid work.
- 11. That the most correct scholarly view is that each condition leads to the profit factor is unknown, speculation is not known, the speculation then invalidated, because the health condition of speculative estimate per worker, and could only share his condition.
- 12. That the Secretary of the speculative factor, should not be entrusted with money back guarantee if it only got him one of two things:

I: abuse: the destruction caused by over-use, whether the actor intended the act or damage to or not intended. But if not preceded by destruction infringement, it is not obliged to guarantee the time.

II: neglect: is the neglect of the Secretariat and the lack of attention to maintain it until all damage or destroy any of them, it must ensure that damage to them due to negligence. This is no difference of opinion among the scholars.

13. Scholars agreed that the speculation factor he must take himself to do business and what followed, which is usually both partners, and that scholars are agreed; because each one of them the owner of the company assures, does not guarantee one without the other 'because both of them the Secretary and the Secretary does not guarantee the other. The damage by a Almalen mix them with the correct view of the scholars is that it would be ensured as well, as if the damage after mixing, because they share the profit before mixing in Vistrkan guaranteed.

- 6. It also builds on the health of the company as well: that the two partners if they lost, the loss caused to each and every one of them as much money, and that no difference of opinion among the scholars.
- 7. That what is tolerated by the business partner in a company it ensures physical done and ensures his partner to do well, and the employer required to do any of the partners wishes.
- 8. Scholars agreed that the partner in a company physical if you got it promises to overcome at work or hypersensitivity which was to be tolerated in the maintenance of what he needs to save, that infringement Owaltafrit he alone, does not need his partner from that thing to say to God: (j jj j lj)
- 9. Scholars agreed that every one of the partners to act on the wealth of company unleashed what he se'es as the interests and under that it has a share of the company, and that under him and his partner Oklh authorized to dispose

## Conclusion:

At the conclusion of this research summary I remember the most important results:

- 1. Scholars agreed that the company contract of the secretariats, including that it does not guarantee the validity of the case so too does not guarantee the corruption case.
- 2. That the most correct scholarly view is that the company held all the evidence for them to say or do, and it is not required to indicate an intention of contracting a particular word, or a certain formula.
- 3. That the company contract Kalannan and negotiation and speculation built and established between the partners on two things: the Agency and the Secretariat, so that the hand of a partner by the Secretariat for the money his partner, not by the own and the partner is also an agent for a partner in the disposition of the money without the need for permission later.
- 4. That the most correct scholarly view is that profit in the company are divided between the partners according to their agreed conditions, whether the agreement between them to profit equally or Othelatha or otherwise.
- 5. That if the company completed its conditions and eliminated Mwanaha has come true, and therefore what damage of Almalen after mix them, it would be to ensure
