ABSTRACT

This research is the study of fundamentalism aimed to know the legality of certain provisions relating to advisory, I have classified the search to five chapters: The first one specialized in the meaning of the advisory, and the second one was the importance of the Mufti and the need for people to him, and the third one was shown in which the rule of

ignorant in the absence of the Mufti (specialist), and I have mentioned that (there is no order on the ignorant by agreement of the most scientists), In the fourth chapter I have shown that the rule of the ignorant if he didn't find just one Mufti (specialist) and must returned to him and the necessity of taking his answer. At last I showed in the fifth chapter the rule of ignorant if it found different answers, in this case the ignorant would fever between answers, as it does between two roads or between two doctors. Then I ended the, search with the most important results that I reached it, so I hope to be useful for science students and who has the responsibility of giving legal opinions between Moslems.

And thank god first and last
