Abstract: This study discusses the influence of fancy on those groups who claim Islam. It shows not only their role in confusing the true religion but their deviation from the instruction of the Holy Quran and sunna and comprehending them, as well. It also discusses those idolaters who worshipped various types of gods often they had glorified and attributed to them some of God's attributes.

In addition to that, this study spotlights on Jews and Christians who inclined to transfiguration and incarnation so, they attributed to God some of man's characteristics (He raised above) and ascribed. What is not proper to Him and disbelieved in His beautiful names.
